THE SIZE AND SPEED OF THE CHEETAH 3D PRINTER MAKE IT A UNIQUE 3D PRINTER. THIS PRINTER OPENS UP THE WORD OF 3D PRINTING TO INCLUDE REAL LIFE WORKING PRODUCTS, LIKE THOSE THAT WAS SHOWN WITH THE LAWN MOWER, VACUUM CLEANER AND SHOES.

THE CHEETAH PRINTS WITH GRANULES, WHICH MAKES IT A LOT CHEAPER, A FACTOR 10, THAN FILAMENT PRINTERS.

THE FLOW RATE THROUGH THE 3MM NOZZLE IS ALSO A FACTOR 10 FASTER, THAN THROUGH A 0.5MM NOZZLE.

CONTACT US FOR A DEMONSTRATION OF THE CHEETAH.
